ORTIE M'MANIGAL TURNS AGAINST LABOR FRIENDS. THE STATE'S STAR WITNESS

Other Sensational Developments Are Hourly Expected in the Los Angeles Dynamiting Cases—Man Who Confessed Positively Refuses to Accept Counsel and Sees Officers and Detectives Only.

BURNS PROMISES SENSATION

Los Angeles Representative of Detective Agency Says "Two Important Arrests Will Soon Be Made in North"—District Attorney Throws Wet Blanket on Sensational Stories of Confessions Sent Out by Correspondents, Declaring Them Fakes.

Los Angeles, April 29.—Sensational developments are expected at almost any moment in the dynamiting cases. R. Mills, local agent of the Burns agency, said that two other arrests are pending and that they "will be made in the north."

"I don't want to see you or Judge Hilton or any other attorney connected with the labor movement. We will let things take their course."

With these words, addressed to Job Harriman, Ortie E. McManigal, who has made several confessions of participation in dynamiting plots and has implicated James B. McNamara and John J. McNamara in the dynamiting of the Times building, indicated his attitude toward the men who are his co-defendants. It is evident that he is going to seek advice from Burns only, be guided by what a detective tells him to do. That he will be the star witness for the prosecution is a foregone conclusion.

John H. Baker, a clerk in the office of the Giant Powder company at East Cal., where the explosive used in the Times building was purchased last September, arrived in Los Angeles and will take a look at James B. McNamara. Baker delivered the 500 pounds of dynamite to these men Sept. 23 last, and they took it away in a launch. It is charged that James McNamara, passing under the name of J. B. Bryce, signed for the delivery of the explosive. Baker taking his signature. Identification of McNamara as Bryce, therefore, will weld another link in the chain.

Brands Stories as Fakes.

Widely published "confessions" sent out of Los Angeles were merely statements into which had been welded various circumstances stated by McManigal in Chicago. District Attorney Fredericks reiterated that not one word of what was taken out when McManigal made his confession had been given out, and that he would let the confessions be published at the admissions of the men.

It was current that both McManigal and James B. McNamara attempted suicide, the former because of remorse and the latter through a determination to escape the law. Both reports were groundless. The men are in excellent spirits. Guards outside the jail halted all who passed it and others inside watched the sleeping prisoners.

Detective Burns telegraphed to District Attorney Fredericks a denial that McManigal has been in his pay as an informer. While admitting he saw the Llewellyn iron works plant was to be dynamited, he says he had no arrangement with McManigal to that job.

Detective Given Full Hearing

Experts Testify Against Perkins Agency Manager.
Philadelphia, April 29.—William G. Campbell, handwriting expert of Columbia, O., was a witness at the hearing of Charles Franklin before the State Commissioner Craig. Campbell was manager of the office of the Perkins detective agency and

was arrested in connection with Gilbert Perkins, head of the agency, and his son Walter on charges of having conspired to obtain work for the agency by sending Black Hand letters to Charles H. Strong, president of the Pittsburgh & Erie railroad.

According to the inspectors, the Perkins agency sent two letters, the first threatening to blow up Strong's family mausoleum at Erie, Pa., unless \$50,000 was deposited in a certain place, and the second threatening Strong and his wife with death unless the demand was complied with. The letters were irregularly torn on the edges. President Strong testified that Gilbert Perkins assured him that the agency would make an arrest, and that the torn pieces of these Black Hand letters would be found on the person apprehended.

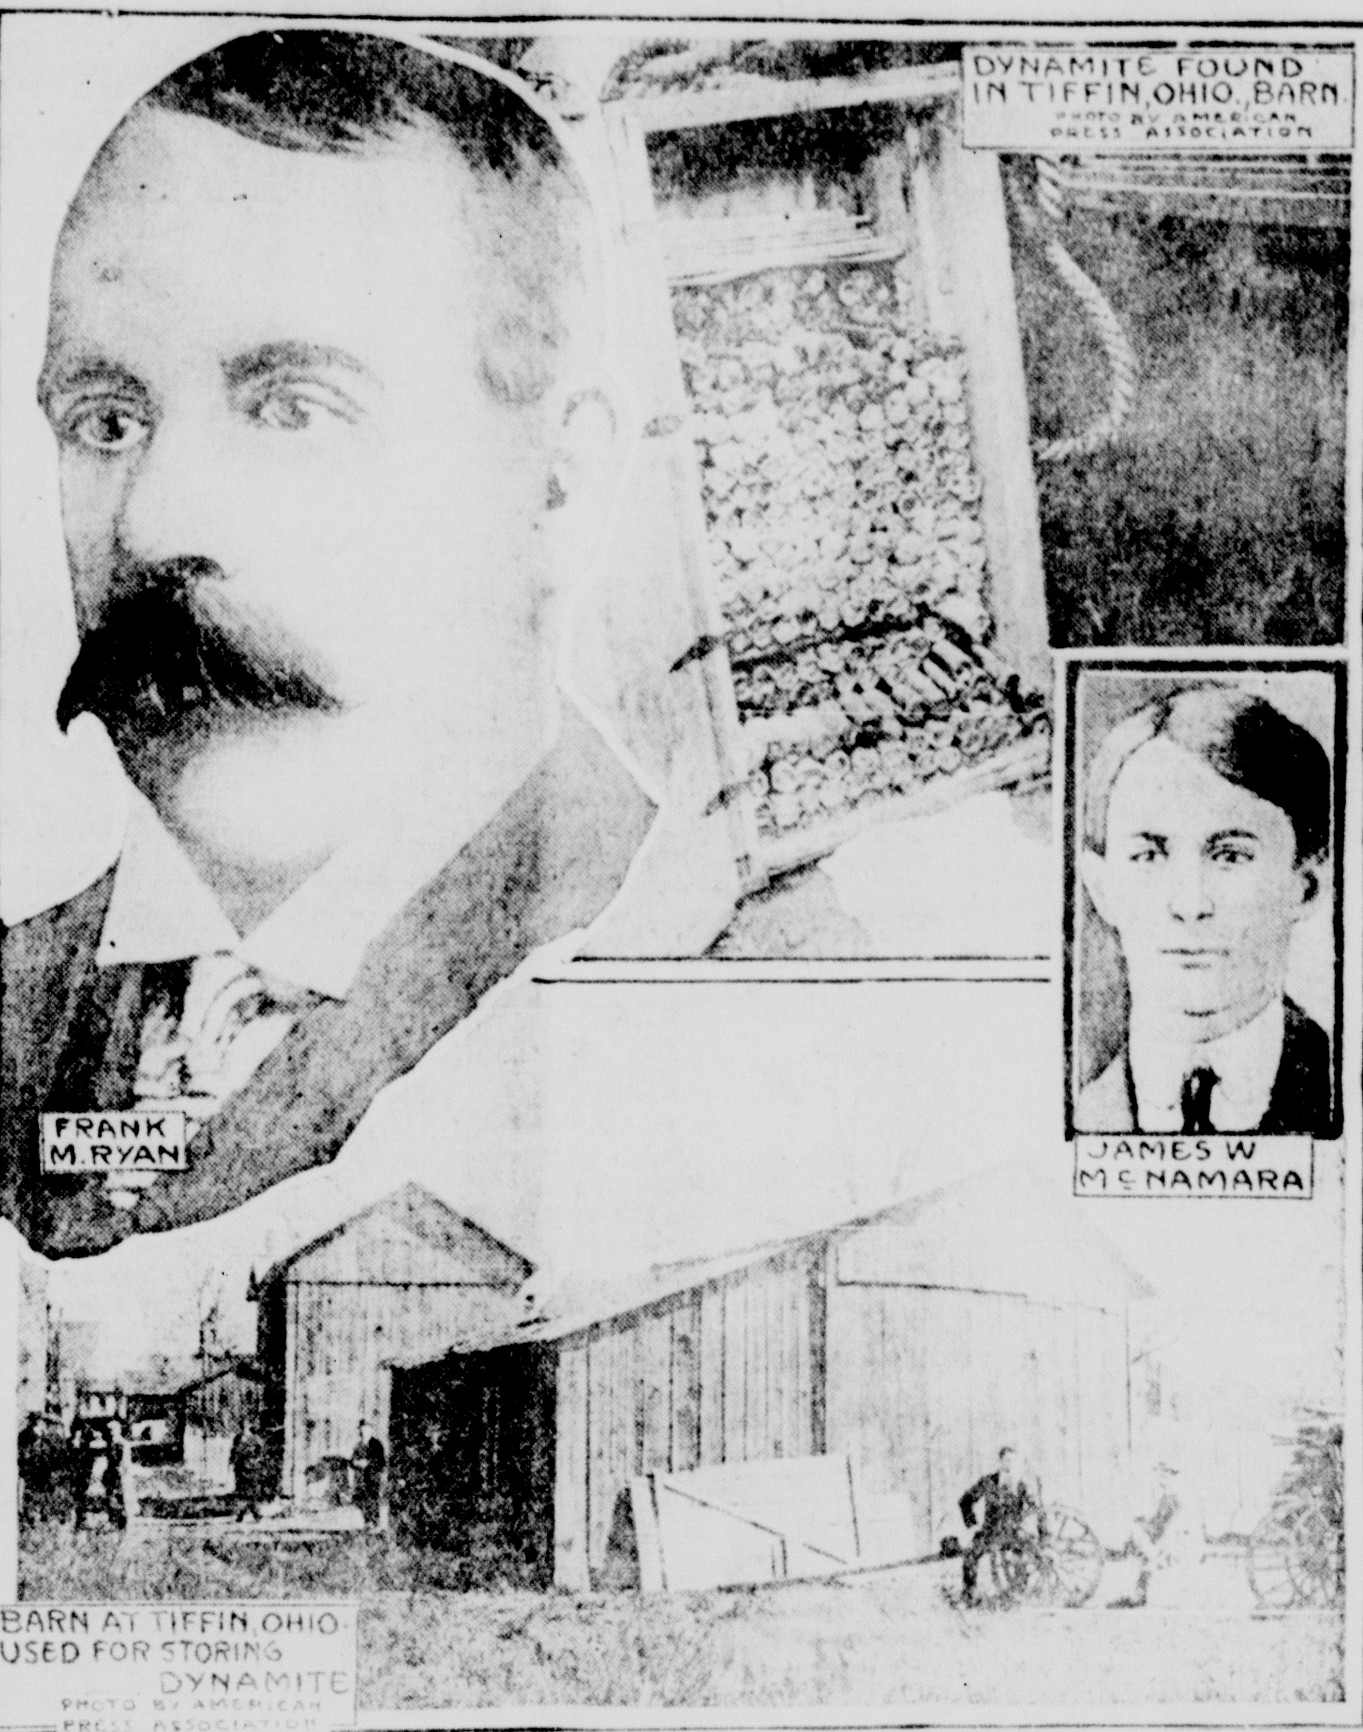

Postal Inspector James M. Wootz of Parkersville, W. Va., testified that when he arrested the elder Perkins he found on him a sealed envelope. In this envelope, he swore, were sheets of torn paper that fitted into the jagged edges of the Black Hand letters which they produced at the hearing.

Inspector Cortelyou produced four letters written by Franklin, he said, at his detention, after Franklin had been arrested. Penzell testified that in his opinion the man who wrote them was the writer of the original Black Hand letters.

Tellers Lose Savings.

Pittsburg, Pa., April 29.—Three neighboring towns are on the verge of bankruptcy by the flight of Andrew Zemay and M. F. Korlath, owners of a chain of banks having deposits to the amount of \$500,000, most of which represents the life savings of foreign mill workers.

President of the Ironworkers' Union, One of the Dynamite Prisoners and Explosive Found In Barn

Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, of which John J. McNamara was the secretary-treasurer, denounces the arrest of the latter as "an outrage." James W. McNamara is a brother of John J. and is alleged to have been the chief agent in the carrying out of the dynamiting plots, being assisted by Ortie McManigal. In addition to the barn near Indianapolis which was used for storing dynamite, a barn at Tiffin, O., has been found to contain a large amount of the explosives. It is charged that the barns were rented for this purpose by the McNamaras.

SOLONS ARE READY FOR THE BIG GRIND QUIT MIDDLE OF MAY

Will Rush Work With That End in View--Many Special Matters of Vital Interest Will be Taken Up in the Senate in Addition to the Usual Grind.

UTILITIES BILL IN SENATE

Will Be Voted on Tuesday Afternoon. Has Been Greatly Modified by Committee—Yount School Book Price Bill Up Same Day—Secretary of State Graves Issues Statement Denying Part in Scheme to Thwart Harmon in Edwards Bill.

Columbus, O., April 29.—One of the features of the legislative session was the action of the senate railroads and telegraphs committee in reporting out the Winters public utilities commission measure. The bill as it passed the house has been greatly amended in committee. It will come up for action Tuesday. Friends of the movement to secure a greater control over

corporations are disheartened at the work of the committee.

In anticipation of adjournment about the middle of the month, the senate will get busy next week. Both the utilities and the Yount school book price bill are to be acted upon Tuesday and the 1 per cent tax levy limit measure Wednesday.

The Gebhardt canal bill, prescribing a new policy of administration of the public works of the state, was amended and placed at the foot of the calendar to escape an organized fight by the Republican minority. The absence of many Democratic members caused the supporters of the bill to take this step in order to prevent its defeat. The bill defines the business policy of the public works.

State officials, particularly Secretary of State Graves, were perturbed over reports holding them responsible for that feature of the Edwards bill, passed in the house, which

knocked the governor out of the position wherein he would be sole dictator in appointing county tax deputies. Graves issued a statement disclaiming responsibility. At recess these appointments by a board comprising the governor, secretary and auditor of state, are provided for. Originally the bill made the governor alone the appointing power.

Stabs Daughter's Traducer

Upper Sandusky, O., April 29.—At a school picnic George Baldwin stabbed Ora Taylor in the abdomen. Taylor is in a serious condition. Baldwin's daughter, Marguerite, 18, recently had Taylor arrested. At the picnic the Baldwin girl informed her father that Taylor had made an insolent remark to her. Baldwin at once made for Taylor with a pocketknife.

Fisherman Falls Dead.

Chagrin Falls, O., April 29.—George Lewis, 52, a farmer, fell dead while fishing in the shallow water of Goodspeed creek. His body was submerged but his head was on the bank, and there was every indication that he had died of heart trouble and not from drowning.

SECRETARY OF STATE

Graves Denies That He Conspired Against Harmon.

Lehman Found Guilty.

Logan, O., April 29.—After an all-night session the jury in the case of the state against Harry Lehman, for the murder of James Wilson, returned a verdict of murder in the first degree, recommending mercy. Lehman is but 19 years old and was convicted of the horrible murder at Carbon Hill, this county, last December. Lehman and Wilson were companions and had been drinking, and built a fire at a sawmill, near Carbon Hill, and were making a night of it. Wilson lay down by the fire and Lehman shot him in the head and robbed him and then burned the body so that only a portion of the skull and a few bones remained to tell the tale.

SIGHTS

Annexation in the Offing

Prince, of Illinois, Says Talk is Not All Bosh

Claims Ratification of Reciprocity Treaty Will Result Ultimately in Annexation.

DISAGREES WITH PRESIDENT

Declares That Wide-Awake, Sturdy American Youths Now Flocking to Canada Will Duplicate Performance of Their Ancestors in Texas and Hawaii—Is Proud of Fact That When Uncle Sam Takes Country He Always Keeps It.

Washington, April 29.—Representative Prince, Republican of Illinois, made a declaration in the house to the effect that the ratification of the reciprocal trade agreement would result ultimately in the annexation of Canada, and excited much interest here. Mr. Prince said that a commercial union of the two countries would undoubtedly be followed by a political union. Mr. Prince said he could not agree with the statement made by President Taft in his New York speech, that annexation talk "was all bosh."

"Our history points out some significant facts that have a bearing in this connection," he said, "years ago Americans went into Texas, and the annexation of that empire to the states followed."

Refers to Clark's Speech.

Mr. Prince referred to the speech in the house a few months ago, when the Canadian bill was under consideration. Champ Clark then predicted the annexation of Canada. Representative Prince declared that Mr. Clark merely gave expression to a thought that was in the minds of many an American statesman. Mr. Prince pointed out that Americans went into Hawaii, Americanized it and annexed it. He continued:

"And if these bright young men that the president speaks of in his speech, these clever, active, vigorous young men from the farms of Illinois and other states go up into the northland, what do you think will be the effect of it? Have I not a right to say that this is the first step toward annexation? Why have not the Americans who go to Canada the right to believe it? When we go into a country and get control of it we take it. It is our history, and it is right we should take it if we want it, and you might as well understand that now."

Mr. Prince is an opponent of Canadian reciprocity. He fought the agreement in the last session and resumed when the measure came up last week.

Killed By Mad Elephant

Trainer Hurled to Death While Loading Animals.

Dixon, Mo., April 29.—James Hildebrand, 45, elephant trainer with the Kit Carson buffalo ranch wild west show, while endeavoring to put Monte, the show's smallest elephant, into a car, was killed by the animal. The elephant wrapped its trunk around the trainer's body, raised him in the air, crushed him and threw him to the ground, pierced his breast with its tusks and dragged him 30 feet along the railroad tracks. The elephant was killed by the management of the show.

Steamer Wrecked.

Madrid, April 29.—A dispatch received here from Vigo says that a big English steamship, the identity of which has not been established, has been wrecked on Cape Villano, on the northwest coast of Galicia.

BIG JUMBLED MIXUP SOMEWHERE ALONG LINE DEPRIVES FLINT OF MONEY DUE

And Threatens, Unless Adjusted Soon, to Deprive Washington People of Street Sprinkling the Coming Season---Nearly Eight Hundred Dollars Due on Last Year's Work---Assessments Claimed Unenforceable.

A problem of vital importance which is now confronting the city of Washington is that of sprinkling the streets to keep the dust down. This problem is being solved on a number of streets by contracts for oiling, and the oil will be applied within the next two weeks. Before the recent rain the streets were becoming exceedingly dusty and the dust laden air caused great discomfort, and like all dust from the filthy streets, was unwholesome and unhealthy. At present the prospects for early sprinkling are not very bright, and the problem is really a serious one, and one which must be disposed of by contracting for the sprinkling of all principal streets which are not oiled.

THE HERALD has been endeavoring to ascertain the why and wherefore of the present condition of affairs, and finds that the whole trouble is that a goodly portion of the sprinkling assessments have not been paid to the contractors who sprinkled the streets last year, and for this reason they refuse to renew the contract, or consider sprinkling until the back assessments are paid in full.

Last year, it is claimed, contracts were authorized by Council for the sprinkling of a number of streets, the city to collect the assessments and pay the contractors, Oliver Flint & Son and James Flint. The ordinance made it possible for the contractors to be renewed for five years, and the contract last year called for the sprinkling of certain streets between May 1st and November 1st, and one-half of the amount was payable August 1st and the remainder November 1st.

There was some confusion over the granting of the ordinance which empowered the street commissioners to contract for sprinkling on the streets under their charge, and this, with other features, was held to be illegal by Solicitor Rankin, but upon the recommendation of other attorneys it was passed. Solicitor Rankin held that the ordinance should empower the Service Director to make the contracts.

The Flints proceeded with their part of the agreement, but received not a cent for their work until over three months had elapsed, and then

the amount was less than \$50. Since that time they have received various sums, but there still remains to be paid, according to a statement of Oliver Flint, some \$866 of the \$1950, the total amount of the assessments.

City Treasurer DeWees, when asked about the amount, said that the amount uncollected was \$778.33, and that this had not been paid the Flints because it had never been collected.

The unpaid assessments have seriously embarrassed the Flints, who were compelled to secure a loan to purchase equipment, etc., with which to carry on the work, and they cannot proceed further with sprinkling until this money is paid them.

James Flint has disposed of his sprinkling wagon to Frank Evans, who has made contracts for sprinkling certain streets. Oliver Flint & Son have signified their intention of selling out if a purchaser can be found.

Contracts for sprinkling the streets must be made with some one for the coming summer, and no delay will be tolerated. It is absolutely necessary that the dust should be kept down, and the time for sprinkling is upon us.

The whole situation is an exceedingly embarrassing one, which threatens to result disastrously to the Flints who have fulfilled their part of the contract and annoying to our citizens in depriving them in a measure at least of the benefits of a thorough sprinkling of the streets this season.

It is but another illustration of loose methods some where, in levying and collecting of special assessments which has caused so much trouble and financial loss in the past—a method which should be corrected in future dealings where it becomes necessary to levy and collect assessments.

Kicked by a Mad Horse

Samuel Birch, of Bestown, Wis., had a most narrow escape from losing his leg, as no doctor could heal the frightful sore that developed, but at last Bucklen's Arnica Salve cured it completely. It is the greatest healer of ulcers, burns, boils, eczema, scalds, cuts, corns, cold-sores, bruises and piles on earth. Try it, 25c., at Blackmer & Tanquary.

Dillard's Fate Known Today

Friday, both sides rested in the Dillard case, which is being tried in the Common Pleas court at Springfield. The fate of Clifford Dillard, who shot and killed Homer Dillon to save the lives of his father and brother, will probably be known before sunset tonight.

The arguments commenced Friday afternoon at 2:50, and the case was expected to reach the jury at noon today. Horace Stafford, attorney for the defendant, made one of the most forceful and touching arguments ever heard in the Springfield courts, yesterday, and women wept, while the entire lobby remained silent and deeply touched.

During the cross examination, Herman Dillon, brother of the dead boy, became much confused in his statements. Henry Dillon was asked concerning several affairs in which he is alleged to have taken active part, and which were more or less of a murderous nature. Many incidents related indicated that the Dillons were full of trickery, deceit and of a revengeful nature.

Centralization Plan Loses Out

The proposal to centralize the Liberty township, Ross county, schools, met with defeat Thursday, when 145 votes were cast against it, and 131 in favor of it, giving the opponents to the plan a majority of 14 votes.

The township has been divided into two districts, however, and the residents of the new district are considering the plan of centralizing the schools. The centralization has caused some legal tangle, and the case is still in court.

D. T. & I. Freight Tied Up In This City

Friday the north-bound local freight on the D. T. & I. railroad was compelled to take the siding in this city and remain there until another engine could be dispatched from headquarters to carry it over the road to its destination.

The coupler pulled from the tender, and all efforts to join the train

A Prosperous Concern Knocking at Our Doors Means Much if Secured

Mr. William Worthington, Cashier of The Fayette County Bank, is in receipt of a letter from Mr. Phillip C. Swing, President of The Swing Electric Company of Cincinnati, at present located at 327 E. Sixth St., that city, which reads as follows:

April 27, 1911.

Wm. Worthington, Esq., Washington C. H., Ohio.

Dear Wm.—We are about to move our factory to larger quarters on account of growing business and have thought some of removing to another city. Would there be any chance in Washington C. H. for an institution with a present payroll of \$500 per week, and one that can be doubled in a year. It is a good proposition and the business is making a rapid growth, and incidentally a little money.

Yours truly,
PHILIP C. SWING.

The Company is a well established concern, succeeding into the business of The Barriett Electric Mfg. Co. All sorts of alternating and direct current motors, generators and auxiliary apparatus are manufactured.

Washington men who are interested in securing industries for the city would do well to investigate the proposition and ascertain just what would be required by the company to induce the owners to locate here.

A pay roll of \$500 a week from a prosperous manufacturing concern, with a prospect of increasing it and all coming in from the outside means that much money from elsewhere brought into the community and placed in circulation weekly among merchants. The addition of these concerns means much to the life and prosperity of any city.

This, too, seems to be the size and kind of business which could be brought here and operated successfully without paying a big bonus.

Judge Goldsberry Arrested

Mrs. M. A. Miller of the State Bureau of Building Inspectors Friday at Chillicothe, caused the arrest of Common Pleas Judge John W. Goldsberry on a charge of sanitary violations in a business block which he owns. The hearing was set for next Thursday, before Squire Throckmorton. Judge Goldsberry has employed Mayor Wallace D. Yaple to defend him and says he will fight the case to the higher courts.

TRAINING FOR SERVICE CLASS.
The training For Service Class will meet at Grace M. E. church Tuesday at 2:30 p. m. Every member is urged to attend.
SECRETARY.

It's The Lady

Who believes in keeping herself youthful, and her skin free from wrinkles and crow's feet, who will be delighted with using MANOLINE. It's a skin food that is absolutely antiseptic, freshens the skin, healthifies and purifies it. Use twice a day after bathing.

There are 360 drops of MANOLINE in a tube, and a drop is enough to cover the face.

So confident are the makers of MANOLINE in its merit that if you, after using it, think that it is not in every respect as represented, you can get your money back. Costs 25c the tube instead of One or Two Dollars.

BROWN'S DRUG STORE
Court and Fayette Sts.
Headquarters in Paints
(16)

were futile, and it was necessary to chain the merchandise cars to the engine and run into Springfield for repairs.

Some of these times it may not be surprising to learn that the D. T. & I. like the Deacon's "Wonderful One Horse Chase", has all worn out at the same time and broken down completely.

MRS. JESS KELLOUGH UNDERGOES OPERATION.

Mrs. Jess Kellough, of near Jeffersonville, was operated on by Dr. Hunt, of Columbus, and Dr. Hodson, at the Hodson hospital Thursday. The operation was a major one and while Mrs. Kellough is thought to be doing as well as possible, many friends are anxiously inquiring for her.

Mrs. Kellough's sister, Miss Clara

FRANK L. STUTSON

HIGH SCHOOL SINGERS IN GLEE CLUB CONCERT MAKE A GOOD SHOWING

The High School Glee Club in its first concert, scored success with a capital "S" and whetted the musical appetites of the audience for more. Despite the deluge of rain, Memorial Hall was well filled and with an audience that made heartsome response to the excellent work of the club.

The stage settings were suggestive of school days and college possibilities, strung with gay pennants representing colleges all over the country and conspicuous in the center the announcement of the C. O. I. A. L. meet in May, which is the anticipated athletic event of the season, and for its expenses last night's concert netted a gratifying sum.

The program was delightful, with the special attraction of joyous young students and rollicking college choruses.

There was no attempt toward stage effect, the naturalness of the girls and boys and their keeping entirely within their range as pleasing as was the sense of their complete preparation. Throughout the work of the Glee club, with its male octette and girls' chorus, showed the splendid training they had received and aroused glowing eulogy for Miss Elizabeth Sheen, director, whose ability was demonstrated to the utmost satisfaction of the audience.

Against the background of pennants the appearance of the Glee club was effective, the girls in their pretty light colored dresses and big bows to match, forming the center of the semi-circle and the boys a manly set of fellows, flanking them on either side.

The choruses were all well sung, with prompt attack, clear, enunciation and sympathetic expression.

The Glee club's most ambitious number was "Daybreak", Eaton Fanning, upon which they had put a great deal of time, the hard work showing in its fine rendering.

The Male Octette, Messrs. Willis M. Craig, Michael, McDonald, Thornton, Kyle, Blessing and W. Craig, made a tremendous hit and especially when the boys came out in field day attire to sing a medley of "Field Day Songs and Yells." The octette possesses an unusual number of good voices and each member puts into his singing as much enthusiasm as if it were a track event. "Doan Ye Cry Ma Honey" with humming banjo accompaniment was exceedingly pretty and the way the octette sang "The Goblins 'B Gie Ye" with its ghoulish minors, caused the eyes of the little boys on the front seat to bulge on their cheeks. The octette was encored again and again and gave taking popular songs.

The girls' chorus, composed of Misses Saxton, Woodward, Rothrock, Lanum, Tanzey, Rowan, Pine, Mohr and Davis, sang two melodious choruses beautifully, with smoothness and artistic expression. They were encored.

Misses Helen Jones and Gladys Brakefield were excellent accompanists.

Interspersing the musical numbers were two readings greatly enjoyed.

Miss Jane Saxton, in a highly entertaining and amusing monologue, "How Girls Study," was a most captivating young school girl and her work artistic and graceful to an unusual degree for her years.

Davis' Edwards' reading of "Sandy's Waterloo", Kate Douglas Wiggins, was marked by splendid delivery and impersonations. The young reader has the ability to thoroughly lend himself to his work. His encore response, in its quick transition to the humorous, was very difficult.

Both young readers thoroughly deserved the strenuous applause given. "Washington Alma Mater" was sung as a melodious closing chorus.

THROUGH SPECIAL ARRANGEMENTS

We are in touch with New York and Paris styles. We know where to find the New Ideas and the Novelties, AND WE GET THEM.

Proof of this:

On Monday we received, with several other styles, "THE COLLAPSABLE." By Wednesday they were all sold. Reordered, and this morning received one Collapsible and many other new styles just coming out. Come and look.

AT THE OUTS.

The fight, for such it is, between Governor Harmon and some of the legislators claiming allegiance to the Governor's political party, is amusing to the political opponents of the Governor and to members of that other great political party which pinned its hopes to the banner of Warren G. Harding and a different set of legislators in the last campaign, but to the people of the state, the business men, the property owners, who do not make a business of the political game it is serious and to their interests the fight now on threatens to be as disastrous in its effect as it does to Governor Harmon's presidential aspirations.

There can be no doubt that Governor Harmon has been playing a deep political game and with a legislature chosen from the political party, the standard-bearer of which the Governor hopes to be in the next national campaign, he has crossed swords with some of the old guard who are now actuated by a consuming desire to make the realization of his ambitions impossible.

In their efforts to do that, it is not likely that many people out of politics would find much fault, but if in making Harmon a political impossibility they trifle with the people's rights or ignore their wishes expressed at the ballot box, an awful howl will go up from every nook and corner of the state.

Unfortunately for the Governor's political enemies in his own party and unfortunately for the people, that is just what is being done, and the recalcitrant legislators are each day making the Governor friends instead of enemies.

Did they but realize it they are playing squarely into the hands of the Governor and simply murdering their party pledges, while the Governor stands out boldly advocating the enactment of legislation promised to the people in campaign time.

The people were promised a one per cent. tax rate limit law which meant just what it said.

The Governor demands the passage of such a law and some of his partisans in the legislature refuse to vote for it. The people demand it and the Governor asks for it, and the legislators agreed to pass it if elected. Now they refuse, believing that it will hurt Governor Harmon.

Bright reasoning.

TALKS ON ADVERTISING.

By Henry Herbert Huff.

No. 9. Some Falling Places to Consider.

COPYRIGHT BY AMERICAN PRESS ASSOCIATION

"Mr. Business Man, I have examined some of the advertising of your merchants and presume you desire my opinion of it."

"I would like very much to know its faults."

"In the first place, you must advertise continuously. It takes a prosperous manufacturing company years to convince the public that its product is 'absolutely pure.' The result is obtained by constantly hammering this truth into the public mind. Likewise in retail advertising it requires several appearances of an ad. before it really gets attention. It takes an added number to interest. It needs still more to convince the readers that the values are good and to lead them to the store to buy, and if they are pleased with their purchases they will come again and tell their friends and continue to read the ads. and to buy. It won't be long before the advertising will be paying nicely and a valuable good will be created.

"Many beginners expect to jump from the start into the places of the old advertisers. This is unreasonable. The oak does not spring from an acorn into a tree, but accomplishes this by steady growth. A business must grow, and it takes time to do so. Advertising makes it shorter work and more certain. It is the firm that has been in the papers for years that is trusted and patronized. Continued advertising fosters confidence. The beginner stands as good a chance if he will follow the regular course and wait.

"Advertising performs no work of magic, is no substitute for energy or business skill. A merchant can't expect to sit down and watch it build additions to his store. He must do his part to help the ads. succeed. Do not attempt too big a business for your capital. And in starting an advertising campaign begin with small spaces and grow into bigger ones. The fellow who starts with big spaces usually grows the opposite way. Occasional advertising is money wasted. A steady stream of small ads. counts for more in the battle of business than a few big shots now and then.

"Change ads. every issue. This is imperative. There is no more excuse for running an ad. without altering its makeup than to print the same news each week on the other pages. If ads. are to be read they must be interesting. No one wants to read the same ad. twice. If each is different, the public will soon get into the habit of reading them, impelled by curiosity if nothing better. But such crude, lifeless affairs as some of your ads. are—and to think they go unchanged for weeks at a time! Is it any wonder they're not paying?

"The public is seeking information about the goods it wants to buy. Tell it about such things. The problem of the city merchant is to make his existence known—such things as who he is, what he has to sell and where he is located. With the country merchant how different! All these facts about him are already known throughout the community. There is no need of using space to tell them over again.

"Another failing is that you merely 'try' advertising. You go about it in a careless sort of way, with no confidence in its possibilities, and expect to make it a success by mere luck. Advertising is for the merchant of ambition who wants to extend his field for trade, to do a bigger business and to make more money. It is a game in which none but the hustler stands a chance."

POETRY FOR TODAY

GOD BLESS HIM!

Here's to the man who smiles on you
 And gives you a cheery "howdy-do!"
 And falls in step when you're walk-
 ing lame
 From the bruises met in the world's
 rough game;
 The man who gives your hand a
 grasp
 That makes old trouble fairly gasp;
 Who says "hello!" and "howdy-do!"
 And makes the world grow brighter
 for you.

Here's to the man you chance to
 meet
 In busy mart or the crowded street.
 When you are fairly down and out
 And lost in more of deepest doubt;
 Who slaps your back and cries
 "hello!"
 With face alight with friendship's
 glow;

Who says "hello!" and "howdy-do!"
 And makes life take a brighter hue.
 Here's to the man of big, brave heart
 Who dare from the crowd to step
 apart

and lend a hand to the man who fell
 to the very brink of the lowest hell;
 Who says, "Hello! what cheer, old
 scout?"

And helps him up to the right about,
 who says "hello!" and "howdy-do!"
 And starts him off on the way anew.

Here's to the man unknown to fame
 Who loves all men and plays the
 game
 Of this life square, and scorns to
 make

A profit big from a friend's mistake;
 Whose eyes light up when he comes
 your way
 And passes a pleasant time o' day;
 Who says "hello!" and "howdy-do!"
 And smiles, and gives new strength
 to you.

—Will M. Maupin in The Com-
 moner.

Weather Conditions

Washington, April 29.—Forecast
 —West Virginia and Ohio: Local
 rain Saturday; Sunday generally
 fair; moderate south winds.

GOOD HOPE HIGH SCHOOL BUILDING IS EXAMINED BY STATE INSPECTOR

Declared Not to Reveal Any Extremely Dangerous Condition and to be Safe Enough to Finish Out the Present Term. Members of Board of Education Issue Statement to Correct Erroneous Impression.

The report of State Inspector Kearn's investigation of the School building at Good Hope, in which the construction of a new building this summer is recommended, was received by clerk of the Wayne Township Board of Education, S. A. Solars, Friday, and is as follows:

"I regret that we have been compelled to delay the report of the last inspection of your school building at Good Hope, but in addition to being busy, we have been out of the office a good part of the time since last Friday.

On Friday, April 21, in company with Mr. Redding, assistant chief inspector, the undersigned made a thorough inspection of your school building to determine whether or not the building can be considered dangerous to use at the present time.

This investigation did not reveal any extremely dangerous condition, but as explained in our former letters, there was found some evidence of structural weakness, but of not a serious nature, or dangerous to use the building for school purposes at this time.

However, while there is no apparent danger at this time as stated to you, we could not assure you, owing to the condition, the building being old and beyond any doubt deteriorating, that a condition would not arise in the future that would render building dangerous, but there does not seem to be any advanced reason why the building should not be used for the balance of this term of school.

As stated in our former letters, however, we would not advise that you attempt to repair or remodel the building, but feel that a new school building should be provided before the next term of school."

T. P. KEARNS,
Chief Inspector.

The Wayne Township Board of Education feeling that a wrong impression exists in some quarters on account of the news publications in last week's local papers, has issued the following statement which is published by request of the members of the Board:

"Good Hope, O., April 26, '11.

Editor Herald:

IT CAN'T BE BEAT!

township, wish to correct an impression caused by an article in your paper in regard to the condition of the school building at Good Hope. The information that the teachers and pupils became alarmed and hurriedly left the building because of the cracking of the walls is not warranted.

The fire inspector cautioned the Board to watch the condition of the building carefully. This caused some alarm among the patrons of the school and a few took their children out of school.

Acting on a petition of about two-thirds of the parents of the school children, the Board closed the school for one week, until the inspector could inspect the building more thoroughly.

Trusting that this will correct the impression that has been spread abroad, we remain,

Yours very truly,
C. B. SESSLAR,
JOHN HUCHISON,
CHAS. W. JONES,

GEO. MOORE."

Wheat is Best Near Washington

Mr. John McDonald, of The Fayette Grain Company, and one of the leading grain men of this section, says that in his travels over the county he finds that the growing wheat in Union township near Washington looks to be in better shape than in any other section of the county.

Incidentally Mr. McDonald remarked that this morning The Fayette Grain Company was paying 50c per bushel for corn and that at that time the best prices obtaining for corn elsewhere in the county was 45 and 46 cents per bushel.

Must Charge Exact Fare

A resolution has been adopted by the Interstate Commerce Commission putting an end to the practice of railroad companies, for the sake of convenience in selling passenger tickets, whenever possible at a charge in multiple of 5. For instance, if the fare according to the mileage figured 44 cents, the rate exacted has in many cases been 45 cents, and if it figured 42 cents, it might be 40 cents. By the order issued, carriers are required to make the charge in odd cents.

Mr. Thad P. Carr, tuner, is now in Washington C. H. Leave orders at Cherry Hotel. 84 eod 2 wks

Grasshopper "Limited" In Trouble Again

The famous Grasshopper "Limited" which handles the freight traffic over the "entire division" of the Grasshopper railroad, was again played out of commission Thursday afternoon, when the much abused engine suddenly broke down while creeping along somewhere between Octa and King Man, the western terminus of the road.

It was necessary to have the old engine removed to Springfield for repairs, delaying all freight deliveries on the road Thursday and Friday. The long suffering merchants along the Grasshopper road certainly have their troubles with delayed freight shipments.

Band Rehersaal Starts With Fifteen Members

The first rehearsal of the Washington Band took place Friday night with fifteen members of the band present, and all highly enthusiastic over the future.

Odd F. Ott had charge of the band during the absence of James Whelpley, who will probably have charge again this year.

Plans were discussed for the future, and a good rehearsal took place. Band practice every Friday night, and all musicians are invited to help make the organization a success.

Oswald Lunacy Hearing Postponed

The case against Mary E. and Lida Oswald, charged with being of unsound mind, came up before Probate Judge Patton this morning, and the attorney for the defendants asked that a postponement be made and the request was granted, the case being set for trial Wednesday of next week. A large number of witnesses have been subpoenaed in the case, and much interest is manifested in it.

AGRICULTURAL STATISTICS SHOW ENORMOUS INCREASE IN OHIO FARM INTERESTS

First Preliminary Comparative Statement
of General Farm Data Issued by Census
Bureau—Farm Lands and Buildings In-
creased \$614,131,000 in Ohio in Last
Decade.

Census Director Durand has just
issued the first official statement
from the Census Bureau regarding
the Agricultural statistics of Ohio.
The statement which is of interest to
every resident of the state, is based
on the preliminary comparative sum-
mary submitted by Dr. L. Gerard
Powers, chief statistician of the di-
vision of agriculture in the Bureau
of the Census.

This statement shows the summary
for both 1900 and 1910, the reported
total value of farm land, buildings,
implements and machinery, etc. At-
tention is called to the fact that
figures are subject to revision later,
because in a few instances the re-
turns were not complete.

The census of agriculture was taken
primarily for the purpose of ob-
taining an accurate inventory of all
classes of farm property existing on
April 15, 1910; a complete exhibit
of farm operations during the year
ended December 31, 1909; and a
statement of the number and value
of domestic animals in cities and vil-
lages on April 15, 1910.

Statements relative to acreage and
yield of crops and the domestic ani-
mals of Ohio will be issued by Di-
rector Durand as soon as the tabula-
tion of this data has been completed.

The statement shows in detail that
the number of farms reported in
1910, was 271,383, as compared with
276,719 in 1900; a decrease of 5,
336 or 2 per cent.

The total value of farm land and
buildings was given in 1910 as \$1,
659,746,000, as against \$1,045,615,
000 in 1900, an increase of \$614,
131,000 or 59 per cent.

In 1910, the value of the farm
land alone constituted 78 per cent.
of the total value of land and buildings,
as compared with 79 per cent. in
1900.

The reported value of farm im-
plements and machinery was \$51,556,
000 in 1910, as against \$26,354,
000 in 1900, a gain of \$25,202,000
or 41 per cent.

The total acreage reported in 1910
was 24,074,000 acres, as compared
with 24,592,000 in 1900, a decrease
of 518,000 acres or 2 per cent.

The improved acreage was returned
in 1910 as amounting to 19,210,
000 acres as against 19,243,000 in
1900, a decrease of 33,000 acres, or
0.2 per cent.

The average value per acre of farm
land alone in 1910, was reported as
\$53.33, while in 1900 it was \$33.35,
the amount of gain being \$19.98, or
60 per cent.

Of the whole number 271,383 of
farms reported in 1910, there were
269,439, or 99 per cent. operated by
white farmers and 1,944 or 1 per
cent. by negro and other non-white
farmers, as compared with a total of
276,719 in 1900, of which 274,759,
or 99 per cent. were conducted by
white farmers and 1,960 or 1 per
cent. by negro and other non-white.
The decrease in the number of farms
of white farmers during the decade,
amounted to 5,311 and in the num-
ber of farms of white farmers during
the decade, amounted to 5,311 and
in the number of farms of negro and
other non-white farmers to 25.

The total number of farms oper-
ated in 1910 by owners, part own-
ers and owners and tenants, com-
prising the "all owners" class, was
191,660, as compared with 197,361
in 1900, a decrease of 5,701.

The total number of farms con-
ducted in 1910 by cash and share
tenants, comprising the "all tenants"
class, was 77,949, as against 75,931
in 1900, an increase of 1,109. The
total number of farms operated by
managers in 1910, was 2,683, as com-
pared with 3,427, in 1900, a decrease
of 744.

The total number of farms operat-
ed by the "all owners" class consti-
tuted 71 per cent. of the whole num-
ber of farms in both 1910 and 1900;
those operated by the "all tenants"
class, 28 per cent. in 1910 and 27
per cent. in 1900; and those con-
ducted by managers, 1 per cent. in both
decades.

Of the total number, 191,660, of
farms operated in 1910 by the "all
owners" class, there were 136,735,
or 71 per cent., reported as owned
free of incumbrance and 54,925 or
29 per cent., mortgaged; for 1,329
of those reported as "owned free,"

however, no report of mortgage debt
was secured.

In 1900, information was secured
concerning the "owned farm homes."
At that time, 145,509 or 71 per cent.
were reported free from debt, and
58,632, or 29 per cent., mortgaged.
There were 4,864 or 29 per cent.,
mortgaged. There were 4,816 in
1900 for which no mortgage report
was secured, these being included in
the farms free from debt. The Cen-
sus Bureau has no information re-
specting the number of mortgaged
farms leased to tenants.

Detective and Son Threatened With Death

Special to Herald
Chicago, April 29.—Detective
Burns has received a letter from
Matt Schmidt, sought in connec-
tion with the crime of blowing
up the Los Angeles Times, say-
ing the McNamara boys are in-
nocent and that he "Schmidt",
did the deed.
The writer also threatens
death to Burns and his son if the
McNamaras are convicted.

NOON TRAIN ON C. & M. V. WITHDRAWN

Saturday was the last day for C.
& M. V. passenger train No. 7,
which has been reaching this city at
12:01 p. m., turning here and re-
turning at 1:20 p. m.
In the future the train will come
only as far as Lancaster.

This train was put on last sum-
mer, as the company believed it
would eventually be a paying ven-
ture, but the number of passengers
carried has not warranted the run-
ning of train No. 7.

Practically all passengers carried
by this train were shoppers from
New Holland and other towns east,
and the withdrawal means loss of
trade to Washington merchants.

Officer Haggard Sues Commissioners

Officer John Haggard Friday filed
suit against the County Commission-
ers and Cyrus Ellis and Chas. Limes,
for damages in the sum of \$300, for
injuries received on the night of
January 2, 1911, by being upset
while driving on the New Martins-
burg pike south of this city.

The plaintiff alleges that Ellis
and Limes had contracted for the
building of a culvert, and that
through their carelessness and negli-
gence and also carelessness and negli-
gence on the part of the County
Commissioners, a quantity of sand
and gravel had been placed in such
manner as to obstruct the road, and
that while driving along the road af-
ter night his rig struck this, upset,
throwing him out and wrenching his
shoulder, broke his ribs and other-
wise injured him in the sum of \$300.
Notice was served on the Commis-
sioners today. The accident happen-
ed while Haggard was out on official
business. Rankin & Rankin are the
attorneys.

SCOUTS MEET TONIGHT.

Meeting of Boy Scouts at Presby-
terian church at 7 o'clock, in base-
ment. The Scouts are planning for
a big "get together" meeting next
week to arrange the summer's cam-
paign.

Ross County Increase Small

Ross county property valuations
escaped with but little increase
when the State Tax Commission got
busy a few days ago. The total in-
crease in the county was \$719,795
and no increase or decrease was
made in Chillicothe's valuation, but
it is believed that a decrease will be
made within a short time, as the
citizens have asked it.

Buckskin township, was increas-
ed 25 per cent. Paint township 29
per cent., and Deerfield and Twin
townships received a boost of 10 per
cent.

The Commission has been request-
ed to make a 20 per cent. reduction
in the Chillicothe valuation.

What Constitutes a Good Investment

"It is Easier to Earn Money Than to Save It."

How to invest savings, or surplus funds of any
kind, is frequently a difficult problem. How to be
sure that the principal will be safe; that the inter-
est will be paid promptly; that in case of necessity
the investment can readily be converted into cash—
all of these points which enter so vitally into the life
of a good investment are not always easy of deter-
mination. This Bank offers you in its

4 Per Cent. Time Certificates of Deposit
an investment for savings and surplus funds, meet-
ing all the above requirements. We will be pleased
to take up the matter with you at any time.

Diaz Is Declared Stumbling Block

Gomez Not Enthusiastic Over Peace Prospects.

San Antonio, Tex., April 29. — Dr. Vasquez Gomez, the representative of the Madero party of the Mexican revolutionists in Washington, who has been summoned to take part in the peace negotiations with the federal government at Juarez, passed through San Antonio en route for El Paso.

Dr. Gomez did not have anything to add to the prepared interview given out at New Orleans, but his answers to several questions give a wider view of his estimation of the difficulties of making a peace.

"I am not at all sure that the peace can be arrived at during the five days extended armistice," said Dr. Gomez. "Perhaps only the main question will be settled by that time. If that is the case, the rest will be easy." Dr. Gomez said he considered the main question to be, what shall be done with President Diaz? He was asked if he did not share the view publicly announced by Francisco Madero in his camp last week, that the consummation of peace did not depend entirely on the resignation of Diaz. "I believe that the future position of Diaz is the greatest issue in the making of peace," Gomez answered.

Baehr Orders Club Disbanded.

Cleveland, O., April 29.—Mayor Herman Baehr through Director of Public Safety Hogen, issued an order that all policemen who are members of the Forum club, the organization of patrolmen antagonistic to Chief Kohler, must resign from the club by next Monday noon or suffer suspension from the public service. Between 250 and 300 policemen belong to the club.

SCENES IN MOROCCO

Typical Bandit and Entrance to Sultan's Palace.

Holy War Has Been Proclaimed

Moroccan Tribesmen Start Revolt Against Foreigners.

Tangier, April 29.—Holy war has been proclaimed throughout Morocco by native tribes against foreigners. Tribesmen are said to be flocking in great numbers to join the revolution. Evidence of widespread hostilities show that France has undertaken a tremendous task in the effort to subdue the rebellious tribesmen and maintain the power of Sultan Moulay Hafid.

On Strange Mission Is Bent

American Searches English River For Shakespeare's Head.

London, April 29.—Dr. Orville W. Owen of Detroit, in spite of ridicule, continued his task of digging into the bed of the river Wye at Chepstow for the head of William Shakespeare. He claims he has a cipher that will guide him to the original manuscripts which will reveal indisputable proof that Bacon murdered Shakespeare and concealed his head in the library which he hid below the river.

Britons Enthuse Over Arbitration

Premier Asquith Addresses Monster Guild Hall Gathering.

London, April 29.—At a huge gathering in Guild hall, the foremost men in England gave their unqualified approval to President Taft's proposal for an arbitration agreement between England and America.

"Only a few months ago such an object as brought about this meeting which is destined to become historic might have been considered a dream. Now we all admit that it is within the domain of practical statesmanship," Premier Asquith declared.

The premier expressed the hope that still greater things than the Anglo-American compact might follow the action of these two countries. "While not wishing to preach or dictate to other nations," he said, "I am sure the Anglo-American agreement against war will be a long step towards the progress of humanity the world over. It is not too much to hope that it is the entering wedge to universal peace."

Amid wild scenes the following was adopted: "That this meeting of citizens of London cordially welcomes the proposal of the president of the United States in favor of a general treaty of arbitration between that country and the British empire and pledges its support to the principles of such a treaty as serving the highest interests of the two nations and as tending to promote the peace of the world."

Root Helps Draft Treaty.

Washington, April 29.—Indications now are that the proposed arbitration treaty between the United States and Great Britain will be submitted to the senate for ratification the latter part of May or the first of June. Senator Root has been called in to assist Secretary Knox in drafting a form of treaty upon which to base the negotiations with Ambassador Bryce. Root and Knox recently put in one whole day in the working of a single phrase in the document.

Takes Blame From Corral.

Mexico City, April 29.—The New York correspondent of El Diario telegraphs his paper that Ramon Corral should not have been credited with saying that "the Mexican revolution was being fomented by Americans, with the idea of forcing intervention." The New York correspondent explains that the interview should have been credited to Inigo Noriega, a rich Spaniard, who has interests in Mexico and who arrived at Santander, Spain, on the same ship with the vice president of Mexico.

Fertilizer for lawns, trees, flower beds and truck gardening. Sold by Florence S. Ustick, kept in stock at C. F. Bonham.

Family Horse Finds Corpse

Takes Youth to Woods Where Aunt Was Murdered.

Lakewood, N. J., April 29.—Arnold Turner was riding the family horse through the woods after having spent several hours in scouring the woods, looking for his aunt, Mrs. Charles N. Turner, who had disappeared from her home here Wednesday. He could not understand why the horse insisted upon turning off the path and taking to the woods on the side of the road. All efforts to get the horse back in the path were unavailing, so the boy let her have her way, and almost before he knew it they had broken through the underbrush and come upon a huddled heap on the ground, which the boy knew was his aunt. He rode to the nearest house and told the neighbors that Mrs. Turner had been found and to hurry for a doctor. The woman was lying face down on the ground, and near by a club seven feet long, with the bark knocked off in places, told the story.

Saved His Mother's Life.

"Four doctors had given me up," writes Mrs. Laura Gaines, of Avoca, La., "and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good. I will always praise them." Electric Bitters is a priceless blessing to women troubled with fainting and dizzy spells, headache, weakness, debility, constipation or kidney disorders. Use them and gain new health, strength and vigor. They're guaranteed to satisfy or money refunded. Only 50c at Blackmer & Tanquary.

IN THE SPORTING WORLD

SPORT LETTER

Cincinnati, April 27, 1911.

Just because the season is two weeks old and some of the teams that showed high class form last season are not among the leaders, there are those fans who are bawling the prospect of these teams not being able to "come back," and are commiserating with others because they have lost more games than they have won so far. Some of the wise writers have even gone so far as to declare the Philadelphia Athletics, world's champions, out of the running for the American League flag because they have not won a big majority of their games to date. Can you beat that for exaggerated fanitism? Ten days or two weeks may change the entire complexion of the base ball map, so far as percentages and positions are concerned, and then the wise dopesters will have to take back all the reckless predictions they have been making. Here in Cincinnati we've had a few falls taken out of our early conceit, but have not given up the idea of finishing up with the bunch. There still remains twenty-four weeks of base ball in which the Reds and other teams that have not set the leagues on fire to date may get into the running—and run hard.

It will take a week or ten days for the pitchers of the various big league teams to strike their proper gait, and until they do the fight for honors will not be strictly on its merits. Here in Cincinnati we're banking much on the pitching staff which has shown as good form as was expected of it. Suggs, Gaspar and Fromme have done some excellent work so far, while McQuillen also has shown that as soon as the weather breaks right for him he will deliver the kind of goods he contracted for. Other teams also are waiting for the "heat" men to get into shape to do what is expected of them. In other departments of the game there haven't been many fireworks exploded, the hitting and general fielding being only of ordinary caliber. But once let the sun play a few days continuous performances and there will be a speedy hiking to form of all the athletes.

Despite the occasional defeats that have been administered to Griffith's men during the past two weeks there have been three new spots on the team that have had an extremely cheerful appearance. They are those occupied by Ed Grant, the new third baseman, Joanny Bates, the center-field patrolman, and Bobby Keefe, the twirler secured from Montreal. This trio has been performing in a manner most scrupulously delicious, as Kipling would say, and have won homes and friends by the able man-

ner in which they have earned their salaries to date. Grant has been giving exhibitions at third that make us remember his predecessors only by the improvement; Bates in center has been a fielding bird, while his clever inside work with the stick has been a revelation. While Keefe's pitching promises to land him with the stars before long. Manager Griffith has been asked to use Keefe in the last Sunday game the Reds play before going East, this contest being with Pittsburgh on May 7, and probably will accede to vox populi.

Sunday excursionists to Cincinnati who usually come here for the Sunday games, will have an interesting attraction offered them on Sunday, May 14, when the Reds are in the East. There will be a series of classy automobile races at the Lantana race track on that day, introducing a number of the leading drivers of the country in cars which have won prizes and made records during the past twelve months. Among those expected to participate in the races is Bobby Burman, who recently clipped nearly two seconds off the mile record, and who has hopes of making a few new marks on a mile circular track with his 200 horse power machine when he strikes here.

Maybe there'll be much loose fighting in various municipalities before long, giving the starving pugilists opportunities of picking up lunch money, to say nothing of having their shoes shined occasionally. Several state legislatures now are considering bills which provide for local option in the way of limited round boxing contests. In other words, city councils will be given the right to say whether or not pugilistic exhibitions shall be allowed. There are many cities in this broad land that like to take an occasional peek at a pair of huskies hammering each other, and there is a well grounded suspicion that laws of this kind would be popular, and at the same time add to the revenues of the cities. The experiment seems to be worth trying.

The grangers of New York decline to stand for the resumption of horse racing in that State with the betting feature attached. Efforts to repeal what is known as the Directors' personal liability law, which compels the Directors of race tracks to be responsible for the losses of their patrons, by declaring that the farmers wanted racing resumed with betting features, has met with the declaration from the agricultural associations that they are not interested in the betting feature.

through wet grounds and heavy judgment in calling off the game, which might possibly have been played after all. There had been a good deal of rain here Thursday night and yesterday morning, and the outlook was rather hopeless when the Griffiths blew in from Cincy anxious for the battle. The Cardinal management, deceived by the weather conditions, officially called the contest off at 11 o'clock.

HEALTH DEFENSE

This is the time of year that we are compelled to defend ourselves against germs and diseases. It is the time when the accumulated debris of winter affords a breeding place for the germs of disease. Cellars, sinks, closets and all dark and damp places about the premises should be thoroughly disinfected.

We have the fumigators and disinfectants that kill these disease germs and protect the home.

May we help you to help yourself?

Schooner Turns Turtle

New Orleans, April 29.—The lumber schooner Emma Hawkins was found bottom up in Lake Pontchartrain. The crew of eight men are believed to have been lost. She was caught in the storm of Wednesday. Seven other schooners, wrecked by the hurricane, are ashore at Bixie and Gulfport.

Herrick For Berlin

New York, April 29.—The Berliner Tageblatt's New York correspondent telegraphs to his paper that he learns on excellent authority that President Taft is thinking of appointing ex-Governor Herrick of Ohio as ambassador to Berlin.
